## EASTER IN WAUSEON CHURCHES

Many Celebrate the Day By Uniting With the Church  
Results of Union Evangelistic Campaign Apparent  
Children--Music and Flowers.

Easter Sunday was a great day in the churches of Wauseon, the un-Easter-like weather failed to penetrate to the interior of any of the churches and in spite of rain and chill the churches were all well filled at all services.

Children, flowers and music were in evidence and the triumph of Life over Death was fittingly celebrated in all of the churches.

The beneficial results of the Union Evangelistic Campaign held under the auspices of the Ministerial Association of Wauseon were very apparent Sunday, when many commemorated the resurrection of the Savior of the World by uniting themselves as members to His Church.

There never was a time in the history of Wauseon when there was more prevalent in the town a spirit of Christian fellowship and good will among the memberships of the various churches. There has been an awakening and there is at present among the people of the community, a recognition of the fact that in spite of denominational, theological and dogmatic differences the Church of Jesus Christ is ONE Church—one, the Master and all are brethren.

This we believe has been brought about largely as a result of the united efforts of all the churches in the Union meetings of February last.

The ministers are to be commended for their work in consummating this union and for the splendid example of Christian unity which they are presenting to the community. They have rendered a service invaluable whose influence will remain as a permanent benefit.

At the Methodist church eight persons were received into full membership making a total of forty-four new members added to the church thus far during the year 1921. The Methodist people were happy and fortunate in having Bishop Anderson with them last Sunday.

At the Christian Church fifteen were received into the fellowship Sunday morning making a total of forty-four received into the membership of this church since January first 1921.

The Congregational Church received thirty-four new members at the morning service and at the evening service the choir gave a program of splendid Easter music and The Lord's Supper was celebrated.

Six were received for membership at the Baptist Church on Sunday morning and there are now not present Sunday who are contemplating uniting with this church.

The United Brethren Church was made happy by the reception of four new members last Sunday morning, which brings the total of new members of the churches on this street, North Dwyer and Wauseon, to twenty-one since January 1st.

At St. George's Catholic Church the beautiful music and yet glad ritual of the church and lovely flowers made impressive the "First Communion" for five girls and seven boys of that church.

Special Taster services were held at the Evangelical Church Sunday evening.

The Church of God on North Fulton Street has recently acquired a new pastor who with his wife, also an ordained minister of this church is putting forth an earnest effort to gather in those who are still without the church. The Sunday School of which W. S. Edgar is superintendent is held at 9:30 every

## ANNOUNCEMENT

The Tribune is much gratified to announce to its readers that this paper has secured one of the most valuable and interesting features ever published in an Ohio newspaper.

Beginning April 7th we will run each week thereafter a fascinating human interest, short story of a striking and valuable historical nature; many of the sketches being based on comparatively local happenings. "Stories of America and Americans" they are called, and range in the time of the events written about, from the dawn of civilization in the Northwest territory, down through the days of the earliest explorers, the Revolutionary period, war of 1812 and up to within the memory of men now living.

Scenes and incidents of many kinds and character will be depicted all based on reliable authority, explorations, wars, romance, politics, social affairs and human interest events, are dealt with in a fascinating style.

By clipping these articles from the first story published, and filing them in order, or in scrap book form, you will have a series of material of great interest and value.

Watch, and start with the first story.

## IRA A. HARTMAN

Ira A. Hartman was the second son of John and Mary Hartman. He was born November 19, 1868 near Pettisville, Ohio and died on the 7th day of March 1921. Age 63 years, 3 months and 18 days. When he was about 12 years of age he moved on the farm where he remained during his entire life. He received his education in his home district school and one term in a normal school at Wauseon. At the age of 17 he gave his life to Christ and united with the Evangelical church remaining a member of that church until 15 years ago when he with his wife and three children transferred their membership to the Christian church in Wauseon, where he remained an active and faithful member until his death.

Our deceased brother was a man of industry, of a quiet nature with habits approaching the ideal. He was a friend to all who knew him in his community and was loved by young and old.

He was united in marriage Sept. 19, 1885 to Miss Carrie E. Bayes and to this happy union were born three children: George B. Hartman, Mrs. Nellie Mohr and Mrs. Erma Barnes. One brother, Marion E. Hartman, a sister, Mrs. Martha Goruch and three grand children all with his good wife remain to mourn the loss of one who had been loved and cherished fatherly farewell father!

Farwell father! Farewell father! Peaceful be thy rest.

Slumber sweetly, God knew best. When to call thee home to rest.

Farwell father! Farewell father! We must say our last farewell. Till we meet beyond the river. Happy, there wash thee to dwell.

Spraying machinery should be in working order and spray material on hand.

## BISHOP ANDERSON IN WAUSEON

The coming of Bishop William F. Anderson to Wauseon was one of the rarest treats of many seasons. The addresses were masterly in inspirational worth, breadth of interest and thoroughness of instruction. It was of rare value to hear a man whose personal acquaintance includes so many of the most prominent men in world affairs to-day. The discussion of the League of Nations issue was clear and impartial. President Harding, who heard the address in Marion a few months ago, has summoned Bishop Anderson into consultation on several occasions and urges the Bishop to "come and see me or write when the spirit moves you." The address referred to and given here Saturday night, revealed the fact that while during the war persons from America were most heartily welcomed in Europe, now in Europe it is often advisable to "soft-pedal the fact that one is an American." The summary of the grievances of the various nations was illuminating and thoughtful. Europe's disappointment at America's failure to assume world leadership is keenly felt. Bishop Anderson thinks that America should have entered the League of Nations with reservations which he asserted, England would have accepted. The Bishop strongly denounced the propaganda attempting to divide the sympathies of England and America by injecting here are "religious and sectarian issues of Ireland."

The address was characterized by a spirit of evident generosity and scholarly striving for fair interpretations of facts as they are. It is hoped that Wauseon may have other opportunities of hearing Bishop Anderson in the not-distant future. He has many Communion and Chautauque engagements for the coming season.

## ABANDONED AUTO

Sheriff R. W. Ford was kept busy last Monday looking after abandoned automobiles.

The car of Mr. Fred Bannister found in front of the residence of Mr. Charles Yeager, by Mr. Yeager, was very soon restored to its rightful owner. A Studebaker speedster in a dilapidated condition, minus license tag was found in the ditch west of the Putz residence in the North part of town and was extracted from its place in the ditch and hauled into the Wauseon garage.

A Ford Coupe, 1919 model was found near Archbold, and a brand new Ford touring car, 1921 model taken from factory, March 21st was found near Denison and taken care of by Mr. W. W. Ackerman. This car carried an Ohio auto truck license tag.

Tuesday Sheriff Ford located the owner of the last named car at Hillsdale, Michigan; the car had been stolen from the owner who came after the lost car in person Tuesday afternoon.

## ROLLER SKATING

Several complaints having been made as to the roller skating in the business section of the town, I hereby notify all persons who indulge in this recreation that an ordinance of the Village of Wauseon prohibits roller skating on Fulton Street from the Methodist Church to the Court House and violators of this ordinance are subject to arrest and fine.

Estate of Jacob Hursh, first and final account filed. Hearing April 25, 1921.

Guardianship of Christine Hayward, final account filed. Hearing

## FULTON COUNTY GIFT CORN

The gift corn for Europe and China will be shipped from Fulton County on Saturday April 2nd. The elevators at the different shipping points in the County are co-operating heartily in this work and will shell and load the corn.

Cars will be placed at Archbold, Wauseon, Delta and Swanton on March 31st, and all corn should be brought in not later than Saturday morning April 2nd.

A car will be placed at Fayette by the Toledo and Western, to be loaded on Monday March 28th, then to be taken to Lyons to be loaded Wednesday March 30th, then to be finished up on April 1st and 2nd.

We are sure that there is not a farmer in Fulton County who would not be willing to give some corn if he could but realize the terrible condition of the starving people in Europe and China. Business men of the County will be given an opportunity to donate money to buy

A list will be kept of every one contributing and the Ohio Farm Bureau federation promises that corn will be dried so that there will be no danger of its spoiling enroute. Every farmer however should furnish us dry corn as possible.

It is hoped that every citizen of Fulton County will feel glad of the opportunity to contribute to this great humanitarian cause.

## GRIFFIN COLE

Griffin Cole was born in Bradford County, Penn., July 11th, 1841, died March 15th, 1921 at the home of his son George at Coldwater, Mich., age 79 years, 8 months and 4 days.

In March 1863 he was united in marriage to Miss Ida Hager who preceded him in death October 1st, 1911.

To this union was born eight children, five boys and three girls, one boy and one girl died in infancy.

There remain to mourn their loss four sons, Rev. W. F. Cole of Denver, Colorado, George of Coldwater, Mich., Drs. Chas. and Edward of Wauseon, two daughters, Mrs. Virginia Rubley and Mrs. Allen Starr of Ann Arbor, Mich., one brother, Wilson Cole of Hart, Mich., and one sister Mrs. Cone Sarak of Penn.

For many years he was a member of the M. E. Church both in Wauseon and Detroit and had many friends in this county.

At the time of his death he was a member of the Baptist Church at Hillsdale, Mich.

He was a member of the Gas Ordinance of the Village of Wauseon, the price of gas which was \$2.34 net per 1000 cubic feet for gas consumed during the month of March has been reduced to \$2.30 net for gas consumed during the month of April.

It is hoped by both the Village authorities and the Gas Company that further reductions can soon be made and they certainly will be if the price of gas coal continues to decline. The Gas Company states that the quality of gas will be much more even just as soon as the new large storage holders which they are planning on building this spring have been completed and put into use.

A purebred sire is an asset of any community. A scrub sire is always a liability.

An abundance of flowers will transform any old house into an admirable home.

Well managed hens are making money for their owners when the price of eggs is low. Poorly managed flocks never pay for their keep.

Dandelions may be considered as a bad debt if in the lawn, a real dietary asset when served cooked as greens or uncoked as a salad, but perhaps a real liability if served in liquid form.

## CARD SOCIAL

A Card Social will be held in the hall over Haumesser & Dolf's Meat Market Tuesday evening April 1th. Everybody cordially invited to attend.

## FARM BUREAU MESSAGE

Co-operative Livestock Company To Be Incorporated—  
Gift Corn To Be Shipped This Week—Take  
Care of The Chicks—Prevent Oat Smut.

The Executive Committee of the Farm Bureau has made application for a charter incorporating the Fulton Livestock Company, for the purpose of marketing livestock for its members co-operatively.

As soon as the charter is received a County wide meeting will be held, a constitution and by-laws adopted and a board of directors elected. At that time more detailed plans will be worked out in regard to the operating of this company.

About eighteen counties in the State have organized livestock shipping companies which are working very satisfactorily.

Gift Corn  
The corn given by the farmers for relief in Europe and China will probably amount to between four or five thousand bushels. The elevators at Swanton, Delta, Wauseon, Archbold, Elmira, Fayette, Lyons and Mecanora are co-operating splendidly in taking care of the corn, shelling and loading it. Six cars will probably be shipped out the latter part of this week or the first part of next week.

Brooding and Rearing Chicks  
A circular recently sent out by the poultry husbandry department of the State University has the following to say in regard to brooding and rearing of chicks.

The most vital stage in the life of the chicken is during the brooding period, thousands of chicks die every year in Ohio because of careless and improper methods of handling during this time. Thousands of others for the same reason do not attain a proper growth and are practically worthless as producers when mature. If good, strong, robust, healthy chicks are not grown, one must not expect to make a success with the mature stock regardless of how well it is managed. No amount of care after the brooding and rearing period will correct the damage done during this time, and it is up to the poultryman who expects to make a success of his poultry to see that his chicks are given the best of care and handled under the best methods.

Summary  
1. A good brooder house and good equipment are essential for brooding chicks.

2. Do not let chicks get chilled or get too warm.

3. Do not feed till at least 48 hours old, 70 hours is better.

4. Get the chicks on fresh clean range as soon as possible.

5. Milk is the most important chick feed and may be fed as the only drink to force consumption.

6. Feed a dry mash from the first week to maturity.

7. Green food should be supplied at all times.

Apply to County Agent for above circular.

Treating Oats for Smut  
Where smut is present, at least there is often a loss of from five to five bushels per acre. The method of treating oats in order to prevent smut is simple and inexpensive, and no farmer should take the chance of having a decreased yield due to this fungus disease.

One pint of formaldehyde mixed with the same amount of water is sufficient to treat from fifty to sixty bushels of oats. Pile the oats up on a clean floor which has been sprayed with the formaldehyde mixture shovel them into a new pile, spraying each shovelful with

Mr. Perry outlined the fundamentals of a recitation as list, the motive which actuates the pupil; 2nd, the pupils appreciation or sense of relative values; 3rd, the pupils organization of material for utilization and 4th initiative on the part of the pupil. The "socialized recitation" method developed by Miss Van Horn and the "Boys Chorus" under the direction of Mr. Lancaster.

The musical program was delightfully varied by a whistling solo by Mr. Blank, County Superintendent. C. D. Perry gave a very interesting and illuminating explanation of the "socialized recitation," a comparatively new method feature among educators.

Mr. Perry outlined the fundamentals of a recitation as list, the motive which actuates the pupil; 2nd, the pupils appreciation or sense of relative values; 3rd, the pupils organization of material for utilization and 4th initiative on the part of the pupil. The "socialized recitation" method developed by Miss Van Horn and the "Boys Chorus" under the direction of Mr. Lancaster.

Professor Perry's talk was followed by a demonstration of the socialized recitation given by an eighth grade history class with Bryan Heise as teacher. The desirable features of this method were perfectly demonstrated by the class. It was a real revelation of what is possible in solving the particular problem at hand; it helps him to organize the material of previously acquired information to utilize in the solution of the problem and it develops initiative in the pupil in the class very of questions that must be answered in arriving at the final solution of the problem.

## Painted Floors Save Housework

Bare wood floors, especially kitchen floors, require much back breaking work, scrubbing, to keep them clean. Acme Quality Floor Paint makes this unnecessary. It forms a smooth, hard, non-absorbent surface from which dirt and grime can be easily wiped off. It protects and saves the surface.

## ACME QUALITY

FLOOR PAINT (Granite)

is easy to apply. It is inexpensive—a quart is enough for one coat on the average kitchen floor.

Dries quickly and withstands the severe wear to which floors are subjected. Furnished in attractive colors. Sample cards on request.

# BUICK

POWER, sturdiness and dependability have been qualities of Buick Valve-in-Head Motor Cars from the time that the name Buick first became linked with the automobile industry. Today, in equal measure as in the past, the Buick Motor Company is dedicated to a continuance of the policy that has caused the Buick car to occupy the position it holds in the public mind.

To all that the name Buick has meant in twenty years of automobile history, the new Nineteen Twenty One Buick brings that grace of movement, that refinement of every line and feature, that sheer beauty of design which inspire a pride of ownership in a fine motor car.

The new Buick line comprises seven models, one for every possible demand. Each has the famed Buick Valve-in-Head Motor, as rugged and powerful as ever, yet refined into a mechanism of unusual quietness.

The improved radiator, hood and cowl lines give a finished touch of trimness to the body, yet without any sacrifice of Buick individuality.

A more resilient spring suspension gives these new Buick models a riding comfort as delightful as their exterior appearance is pleasing.

Each of the seven models has its own value particularly adapted to a distinct class of service. All possess those inherent Buick qualities that assure the owner the uninterrupted use of his investment.
